

# Understanding OCD

## A Community Education Event

### Sponsorship & Community Partnership Opportunities

May 1, 2026 | Kevin Brady Community Center - The Woodlands

#### About The Event

**Understanding OCD** is a community-based educational event created to address a critical gap in mental health care: the delayed identification and treatment of Obsessive-Compulsive Disorder (OCD). On average, individuals with OCD go 14–17 years without proper diagnosis or evidence-based treatment. This event brings together clinicians, educators, medical providers, families, and individuals with lived experience to improve early recognition, referral, and outcomes at the community level.

#### How You Can Support This Event:

##### **Community Supporter Contribution: \$250**

**Community Supporters** help make evidence-based mental health education accessible to medical and mental health providers, educators, therapists, families, and individuals in The Woodlands.

#### Brand Visibility & Recognition

- Logo featured in Community Mental Health resource guide (digital + print)
- Logo placement on event materials & presentation slides
- Logo on event website + link to website
- Name/Logo on day of schedule programs

#### Community & Connection

- Expand your network with local mental health providers
- Connect with families, clinicians, educators & community partners
- Meaningful visibility within a cross-disciplinary audience.

#### Event Presence & Engagement

- Speaker Recognition during opening remarks
- 2 Complementary registrations
- Dedicated resource table/booth to distribute educational materials or resources to attendees

#### Mission Alignment

- Support community access to mental health education
- Recognition as a community Mental Health supporter/provider
- Public alignment with early identification & evidence-based care.
